

SANTHOSH.R

MERN DEVELOPER

Varkala Trivandrum | santhoshrajan817@gmail.com | 7025912190

SUMMARY

Motivated MERN Stack Developer with more than 1 year of hands-on experience in building dynamic and responsive web applications using MongoDB, Express.js, React.js, and Node.js. Skilled in developing RESTful APIs, managing databases, and creating user-friendly interfaces. Passionate about writing clean, efficient code and continuously learning new technologies to improve development skills

TECHNICAL SKILLS

React JS	REST API Integration	Git & GitHub
State Management	Redux Toolkit	Postman
Node JS	React Bits / Material Ui	Hooks

PROFESSIONAL EXPERIENCE

Srishti Innovative (Technopark) - React Developer

March 2025 - Present

- Developed and maintained full-stack web applications using MongoDB, Express.js, React.js, and Node.js (MERN stack).
- Built and integrated RESTful APIs for seamless communication between frontend and backend.
- Debugged and resolved application issues to improve performance and user experience.
- Managed and optimized MongoDB databases using Mongoose for efficient data handling.

INTERNSHIP EXPERIENCE

Srishti Innovative - MERN Stack Development

Aug 2024 - Mar - 2025

- Assisted in developing web applications using MongoDB, Express.js, React.js, and Node.js.
- Worked on frontend components and backend API development.
- Collaborated with senior developers and followed industry best practices.
- Learned version control using Git and project collaboration tools.

PROJECTS

Collage Zone

- Developed a college management system to handle campus functionalities such as attendance tracking, exam management, and assignment handling. Worked on frontend components and backend API development.
- Implemented features like automated email notifications, student data management, and role-based access for efficient administration.
- Built a bus tracking module with live location tracking and route preference management for drivers to improve transportation efficiency.

Docter App

- Developed the backend for a doctor appointment booking application, handling user registration, login, and appointment scheduling.
- Built secure RESTful APIs using Node.js and Express.js for managing doctors, patients, and appointment data.
- Integrated database (MongoDB) for storing user and appointment details, ensuring efficient data management and retrieval.

Nercha App

- Developed the backend for a devotional platform to list temples, churches, and mosques with detailed information such as location, timings, and services.
- Built secure RESTful APIs for pooja/service booking and integrated online payment functionality..
- Managed database operations (MongoDB) for users, bookings, and transactions, ensuring efficient data handling and performance.

EDUCATION

B.Com Computer Application

Aug 2020 - May 2023

KTCT Collage of Arts and Science

- Completed Bachelor of Commerce (B.Com) in Computer Applications with strong knowledge of business processes and computer fundamentals.
- Gained understanding of accounting, finance, and basic programming concepts during the course.
